Steve Thompson, Interstate Engineering, presented a proposal for design, construction and environmental engineering services for emergency relief projects and explained that all projects need to be bid through the Department of Transportation in order for the County to utilize DOT funding. Ova made a motion seconded by Schwartz to select Interstate Engineering for the 2010 ER projects. Roll call vote – Klose, Ova, Marks, Schwartz and Neys voted aye.

A resolution to not allow plastic (HDPE or PVC) above ground for drainage purposes in Stutsman County roads right of ways including approaches was made by Marks and seconded by Neys. Roll call vote – Ova, Marks, Schwartz, Neys and Klose voted aye.

Jim Fettig, Courthouse Maintenance Supervisor, reported that they had applied for two Court Facilities Grants and both had been approved. The first grant was for the security system to fund panic buttons, with the total project cost of \$14,517. \$3,235.70 was approved through the grant as this was the amount that was directly related to the Counts - Juvenile and District Court. The LEC and Building Maintenance departments had budgeted for this project. The second grant was for a Juvenile Court wall with windows and a door to be put up in order to keep their privacy issues intact. The total cost of this project was \$14,000, at a 75/25 split, our cost would be \$3,425. Marks made a motion seconded by Schwartz to proceed with both projects. Roll call vote – Marks, Schwartz, Neys, Klose and Ova voted aye.

Commissioner Schwartz reviewed the cost involved with the Gavilon Grain proposal with ND DOT funding a portion of the project. The cost was pushing over \$1.5 million, there were right of way issues and it would be possibly two years out. He and Commissioner Marks had met with Border States regarding the project. If they were to bypass the DOT, give up the \$400,000 from DOT and thus have it none with no right of way issues, Border States could overlay the road to the north with six inches of gravel and five inches of asphalt, then take about a foot of asphalt off of County Road 40 and put about a 26 foot sluf with 4" of overlay the projected cost would be close to the original proposal from Gavilon.

Schwartz felt there were too many issues regarding the closing of the crossing to the south of Gavilon, he would also like to see traffic counts before closing the crossing. Once a crossing is closed it is closed. He would like to know if Gavilon would commit to the project. He knows what Gavilon would like but doesn't feel that the Commission can commit to it at this point.

Ova questioned if they could close the crossing for an extended time if that would be an option. If the truck traffic gets to heavy maybe empty trucks could be run one direction.

Rich Welding, Gavilon Grain Manager, said that the grain side averages throughout the year 50 trucks per day and up to 250 trucks during the heavy times. Estimates could be 100 trucks for dry fertilizer and 50 trucks for liquid fertilizer. Schwartz said that it looks like up to 300 trucks could be expected on County Road 40. With that number of trucks could be looking at safety issues.

Dale Diede, resident along County Road 40, asked what percent of the trucks were coming from other elevators without rail access. Welding felt it was less than 10 percent. Diede said that logistically having two avenues of approach to their facility would be a benefit to them.

Klose asked how many frequent would there be trains across the crossing, would it be feasible to have warning or flashing lights warning traffic to take another route. Welding said that on the grain side it would be about an hour per train. Mark Dooley, Gavilon Fertilizer, said until the track configuration was laid out would not have a definite timeframe. He said that it could be up to two days at a time.

Steve Thompson, Interstate Engineering, recommended taking it off the major collection system.

Klose stated that there were too many unknowns on both sides, for the Commission and for Gavilon. Marks said that if they follow the plan with Border States it could get done this year. Klose said following the DOT plan it would cost the County \$500,000 to get \$400,000. It doesn't pay. Schwartz asked the cost of the bid specs for the engineering standpoint. Thompson said that one estimate for the boring for an analysis was \$3,500. He said to do both the design and construction engineering for the roadway on an hourly basis with a not to exceed of 10 ¹/₂ percent of contractors bid amount.

Gavilon would contact the Commission if they were still committed to the project.

Susan Diede wondered if there would be a traffic count done, that two roads had to be better than one.

Klose said that the Commission would wait to hear to hear from Gavilon before making a final decision.

Ova made a motion seconded by Schwartz to pay \$82.50 in taxable meals. Roll call vote – Schwartz, Neys, Klose, Ova and Marks voted aye.

Marks presented information of the library proposal involving the requirements for public hearings and the purchase of the Essentia site. The item would be scheduled for the next commission meeting.

Mickey Nenow, County Highway Superintendent, requested the approval of the rates charged for road department services for the coming year. Schwartz made a motion seconded by Marks to approve the rate increases. Motion carried.

Ova made a motion seconded by Schwartz to pay the mid month bills. Roll call vote – Neys, Klose, Ova, Marks and Schwartz voted aye.
