

At 8:00 a.m., Chairman Klose called the mid-month meeting of the Stutsman County Commission to order. Mark T. Klose, Dennis Ova, Dale Marks, David Schwartz, and Craig Neys answered the roll call.

Dustin Bakken, Tax Director, presented his monthly report. Bakken informed the commissioners the county has seen some major changes with property valuations; agricultural land value will be increasing by 13% and residential valuations will be increasing drastically depending upon which township and city people were in. The ranges are from ten percent in the far outreaching townships to 37 percent in Midway Township. The increases are all based on sale figures. The increase in property values is justifiable. The major concern the property owners have is what they are going to be getting in terms of their tax dollars.

Bakken stated last week at the Township Assessor meeting, a house bill draft is being proposed to increase the level of education needed for assessment officials. Currently, a township assessor needs 24 hours of training and then four hours each year after that to remain certified. The house bill draft is proposing 180 hours of training and ten hours each year after that to remain certified. The Township Officers Association voted to oppose this bill for fear it would wipe out their local assessors. Most of the individuals that do the assessing now for the townships do not have the time or the resources to spend three weeks for training. Dustin questioned the assessors at their annual training on how many would quit if this bill goes through; 21 out of the 22 assessors said they will quit if this bill goes through. If this happens, the county may assume more townships and could possibly need to add additional staff. Bradley, Auditor/COO, and Bakken have thought of not charging the townships for assessing services; the county would hire another assessor and the townships would sign off to agree having the county perform assessing services for them. The thought is to deter having townships at the last minute come to the county stating they cannot find an assessor, then the county is stuck doing the assessing and this would result in the county being understaffed. Bradley and Bakken would like to present this at the fall meeting to see if townships would be on board with this idea. The county currently does the assessing for 17 townships and eight cities. The house bill draft would help with the equalization for assessing. Instead of having 22 assessors, it could possibly bring it down to four or five assessors that would have more education and knowledge of the process. If the county offers the same service across the board then the county would spread the tax burden across the board. It is the consensus of the commissioners to bring the information up on the Township Association meeting.

Bakken stated he will potentially look at another date and time for the county Equalization meeting.

Jim Fettig, Courthouse Maintenance Supervisor, informed the commissioners the county had four companies at a pre-bid meeting for the Courthouse roof replacement project. Three bids were received from A & R Roofing Co. in the amount of \$71,170 and \$2.25 per square foot for insulation replacement. Tecta America Dakotas LLC bid \$104,050 for the roof and \$1.30 per square foot for insulation replacement; and lastly Lee's Roofing bid \$78,052 for the roof and \$9.50 per square foot for the insulation replacement. Fettig had \$92,000 budgeted for the replacement of the Courthouse roof. Jamestown Plumbing & Heating Company will be hired at time and material to lift, add more decking, and an addition of ductwork on the inside for the fresh air intake. Ova made a motion, seconded by Schwartz to approve awarding the bid to A & R Roofing Company. Roll call vote: Ova, Marks, Schwartz, Neys, Klose voted aye. A & R Roofing would like to start the middle of May on the roof project.

Fettig requested to have an open ended two year contract with Ecolab Pest Control. Jim has not had other companies interested in bidding for these services for several years. Schwartz made a motion, seconded by Marks to approve the request as presented. Motion Carried.

Fritz Fremgen, State's Attorney, requested approval to contract for special mental health attorney for \$175.00 per hour. Currently, the county has a mental health patient that is very demanding. Fritz stated the county is running out of its pool of attorney's for mental health. The county of residence will be billed for the attorney fees.

Fremgen informed the commissioners he has received three applications for the scanner position and no applications were received for the law clerk position.

Casey Bradley, Auditor/COO, informed the commissioners about the James River Senior Citizen's Center easement and lease agreement. The easement grants the privilege and authority to use for access for ingress and egress of the property for the sidewalk and the entrance to the property. The repairs and maintenance of concrete or snow removal costs and expenses will be

shared 50/50 percent up to \$2,000.00. The lease agreement grants a non-exclusive access for ingress and egress across the property as well as the general parking area and the garage and the agreed upon parking spaces located on the property to be designated Americans with Disability Act parking spaces. The rent is \$750 per year for the general upkeep of maintenance. Ova made a motion, seconded by Neys to approve the Senior Center easement and lease agreement as presented. Roll call vote: Marks, Schwartz, Neys, Klose, Ova voted aye.

Bradley, Auditor/COO, presented a list for appointment of poll workers and the designation of polling hours for the Primary Election day to be from 7:00 a.m. to 7:00 p.m. Schwartz made a motion, seconded by Neys to approve the appointment of poll workers and the designation of polling hours as presented. Motion Carried.

Schwartz made a motion, seconded by Ova to approve the taxable meals and mid-month bills. Roll Call vote: Schwartz, Neys, Klose, Ova, Marks voted aye.
