The next item on the agenda was to review the request from Jerry Gengler regarding the removal of a silt ridge upon DOT right of way. Mr. Gengler indicated that the DOT required the Water Resource Board's approval in order to remove this ridge. Essentially, water is pooling in this area because of silting over the years, creating a ridge along the Right of Way. This silting affects approximately five to ten acres. The ridge has built up over time, due to farming and DOT activities on the roadway. Ms. Geroux explained that the Stutsman County Water Resource Board does not have a formal application for these types of approvals, because they come from the DOT. Therefore, no formal application was required to go in front of the Board. The Board members indicated that they had no concerns about removing the ridge. Dennis Clark moved and Arlyn Schmidt seconded a motion for approval. Motion passed.
